RESPONSE TO APPLICANT'S AMENDMENT

1. Applicant's amendment, filed 10/27/04 is acknowledged.

Claims 59-69, 71, 85, 88, 89 and 99 are pending.

Claims 59-69, 71, 85, 88, 89 and 99 are under consideration in the instant application.

2. Applicant's cancellation of Claims 52-58, in conjunction with Applicant's amendments filed 10/27/04 and 12/10/04 have obviated the previous rejections of record in Office Action, mailed on 07/27/04.

The following new ground of rejection is necessitated by the amendments filed 10/27/04 and 12/10/04 .

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

*The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.*

4. Claims 64 -66 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. **This is a New Matter rejection.**

“SEQ ID NOs 9 –11” for human germlines V<sub>h</sub>3-30.3 or V<sub>k</sub>L18 or V<sub>k</sub>A27 respectively, claimed in claims 64-66 represent a departure from the specification and the claims as originally filed and applicant has not pointed out where the support come from. It is noted that the specification, as originally filed only disclosed the general nomenclature for said germline, for example V<sub>h</sub>3-30.3 , V<sub>k</sub>L18 and V<sub>k</sub>A27 without providing a sequences data or specific database name and accession numbers to retrieve the specific sequences of these genes.

5. The prior art does not teach or suggest the claimed invention recited in claims 59-63, 67-69, 71, 85, 88, 89 and 99

Art Unit: 1644

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

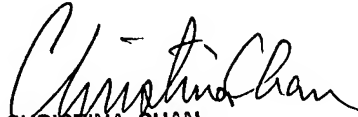

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
